Langkawi 3 August 2005

To whom it may concern;

Mr. John Hammond, Gipsy, during the refit of the yacht Luja in Wavemaster Langkawi Yacht Centre, for my knowledge has been in charge of the yard's Fit out dept. for the rebuilding of the teak deck of this vessel from January to July 2005.

Luja is a one off cruiser racer 25Mt over all, built by Cantieri Sangermani in 1992 on Sparkman & Stevens design.

The rebuilding of the teak deck on Luja, has been a long and painstaking process for the amount of details which have required great boatbuilding skills and high standard workmanship.

All the works carried out on Luja under his supervision or by himself, have met the high standards required on such a Yacht and my complete satisfaction.

We may look forward to undertake with him any other future project and wish him well for the future.

Sincerely

Capt. Luigi Gargiulo
